Examiner's Response

Applicant's response on June 11, 2008 filed in response to the Office Action dated January 11, 2008 has been received and duly noted.

In view of this response, the status of the rejections/objections of record is as follows:

Status of the Claims

Claims 42-47 are new.

Claims 1, 5, 12, 14, 27, 28 and 42-47 are pending and rejected.

Claims 2-4, 6-11, 13, 15-26 and 29-41 have been cancelled.

35 USC § 112 Rejection(s)

The 112-2nd rejection of claims 1, 5, 12, 27, 28 and 42-45 regarding the term "derivatives" in particular the term pharmaceutical active derivatives, still persists in claim 1 have not been overcome in view of Applicants amending the claims.

The 112-2nd rejection of claims 28 and 29 regarding use of trademarks has been overcome in view of Applicants cancelling and amending the claims.

The 112-1st rejection of claims 29 regarding the phrase

~~acting insulin, an intermediate acting insulin, a long acting insulin, a combination of intermediate and rapid acting insulins,~~

as unduly functional has been overcome in view of Applicants amendment.

The 112-1st rejection of claims 1-18 and 27-29 regarding the scope of enablement for the substitution of "Cy and A" have been overcome in view of Applicants amending and cancelling claims.

35 USC § 102(e) Rejection(s)

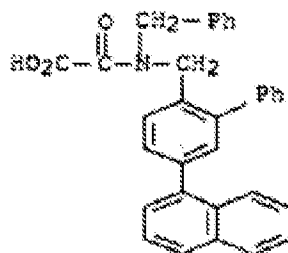

Applicant's arguments with respect to 102(e) rejections have been fully considered and are persuasive. The 102(e) rejection of claims 1-4, 9, 12-14 and 27-29 regarding anticipation by Liu et al (US 6,627,767 B2) has been withdrawn.

35 USC § 103(a) Rejection(s)

Applicant's arguments with respect to 103(a) rejections have been fully considered and are persuasive. The 103(a) rejection of claims 1-3 regarding obviousness over Burrows et al (J. Org. Chem. 1982, 47, 892-893) has been withdrawn.

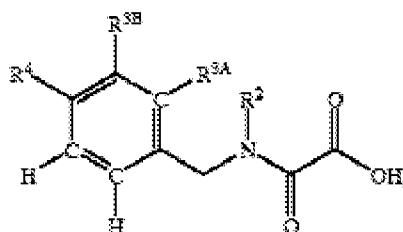

Applicant's arguments with respect to 103(a) rejections have been fully considered and are not persuasive. The 103(a) rejection of claims 1-5, 9-18 and 27-29 (currently claims 1, 5, 12, 14, 27-28 and 42-47 regarding obviousness over Liu et al (US 6,627,767 B2) stands rejected.

As stated in Non-Final Office Action, Liu discloses compounds of Formula I where R1=CH₂Ph, R2a and R2b=H, Cy=phenyl substituted with phenyl and naphthyl (see Example 30, column 31, lines 5—60, compound below).

Also detailed in Non-Final Office Action was that Lui describes a genus teaching in which compounds of Formula I where Cy=phenyl which is substituted phenyl. This is a clear suggestion that this compound is not required to be substituted by a naphthyl group. Lui et al still teaches the genus as claimed by instant application (see Formula III, column 3, top left column and entire document).

(III)

or therapeutically acceptable salts thereof, wherein R^2 and R^4 are defined previously; R^{3A} is selected from hydrogen, loweralkoxy, alkoxy, alkoxyalkenyl, alkoxyalkoxy, aryl, carboxamidoalkenyl, carboxamidoalkoxy, carboxyalkenyl, carboxyalkoxy, halo, and heteroarylalkoxy; and R^{3B} is selected from hydrogen and halo.

According to Lui, the phenyl group can substituted by many chemical groups (see column 7, lines 16-39) and R^2 =phenyl (see column 2, lines 1-3).

An action on the merits of claims 1 is contained herein below.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. R1 is CH-phenyl or CH-naphthyl. The CH- portion would not fulfill the correct valency for carbon, which is four and would not have a complete octet. Applicant only describes a three-bonded carbon. This rejection is necessitated by Applicant's amendment.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention – new matter. Claim 1 has been amended to read “CH-phenyl, CH-naphthyl”. This rejection is necessitated by Applicant's amendment

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Conclusion

Applicant is respectfully reminded that it is required that all claims be amended to elected group. Examiner also warns Applicant not to introduce new matter when amending.
